WASHINGTON, Aug. 23.—German propaganda designed to create dissension among the allies with stories that the United States will use its enormous fleet of transports and food ships for trade conquests after the war was the subject of a statement today by Chairman Hurley of the shipping board. HAIG REPORTS DAY'S FIGHTING**Troops Advance Two Miles on Six-mile Front and Retake Albert.**

LONDON, Aug. 22.—The following official communication dealing with the operations of the western front, supplementing Field Marshal Haig's communication, was issued tonight:

"At 4:45 o'clock this morning English east country and London and Australian troops holding the sector between the Somme and the Ancre attacked with the object of carrying the enemy's positions on the high ground traversed by the Bray-Sur-Somme-Albert road. In this attack they were completely successful, capturing their objectives at an early hour and advancing a distance of two miles on a front of over six miles.

"Our troops have re-taken Albert. Considerable resistance was met with at certain points, particularly on the slopes north of Bray, the town itself not forming part of our objective.

"In this latter sector a hostile counter-attack later in the day pressed back our troops for a distance of about 500 yards. Fighting continued for some time and also in Albert until the town was finally cleared by our troops. In these successful operations we captured some 1400 prisoners and a few guns.

"Our troops have made further progress on the left bank of the Ancre south of Beaucourt. North of the Ancre the enemy has counter-attacked heavily during the day at a number of points.

"After the repulse of one hostile assault early this morning in the Miraumont sector, the enemy again attacked in this locality later in the day and entered our positions. He was at once counter-attacked and driven out by our troops.

"Northeast of Achiet-Le-Grand, also the enemy succeeded during the morning in pressing back our forward posts, but once more our counter-attack re-established our position and we took 200 prisoners. Other hostile attacks east of the Courcelles and east of Moyenneville were in each case repulsed.

"The number of prisoners captured by us today and yesterday in our operations between the Somme and Moyenneville is more than 5000.

"On the Lys front our troops have made progress east of Merville and in the direction of Neufberguin, where they are in close touch with the enemy. Several prisoners and a few machine guns have been taken by us in this sector. We carried out a successful local operation this morning north of Baillies, advancing our line on a front of about 1½ miles and capturing prisoners. A raid attempted by the enemy early this morning in the neighborhood of Dickenbusch was repulsed.

WOMEN OF NORTHERN SHOULD ORGANIZE

The Women of American Patriots are sending letters to dispatching women of the smaller towns in the northern part of the state urging them to organize societies similar to the one in Ogden. Mrs. G. W. Tripp, secretary of the society, is mailing the letters as follows:

"To the women relatives of men in service:

"About eight months ago we, in Ogden, organized the nearest women relatives of boys in service into an organization named the 'Women of American Patriots.' We adopted a constitution and by-laws and we have found that our organization is meeting a present need. We have found many opportunities both in the way of helping each other, and of being of assistance to the boys in the service.

"Our motto is 'Work, Watch, Wait, Win,' our badge, a small knot of red, white and blue ribbon; our object 'Mutual Helpfulness.'"

"A record of our organization has been placed with the governor of the state. We have no financial obligations. All expenses of flowers or other contributions are met by voluntary contributors. We send flowers only to the living, and that after one or two weeks have passed since a special sorrow."

"We invite you to have a similar organization in your locality and advise that the by-laws be made to fit your local needs and any information or help we can give we shall be glad to furnish."

"A careful record of each boy is kept to be filed with the city as his lot at the close of the war. We hope that an organization of this kind may soon be established in every town in Utah so that we may help each other and stand together in the same way that our boys are doing at this time."

We are under the approval of the Council of Defense."

Five Important German Towns Are Bombarded

LONDON, Aug. 23.—Five important towns in Germany and five hostile airbases were heavily bombed by British aerial squadrons on the night of August 21-22, according to an official statement issued today by the British air ministry.

Military objectives at Frankfurt and Cologne, the statement adds, were heavily attacked and good results were obtained.

Crude and abusive treatment and attempts to damage her character were charged.

WORLD'S MARKETS

NEW YORK, Aug. 23.—Specialties were the only features of interest at the dull opening of today's stock market. Hide and Leather preferred mounted to the new record of 94 on its further advance of 1½ points, the common also gaining a point. Changes among industrials and equipments were trivial, advances and declines being about equally distributed. The list hardened later, Canadian Pacific gaining 1½ points and St. Paul one point.

Liberty bonds manifested none of their recent activity, only a few transactions in the 3½'s occurring during the first half hour.

Authoritative assurances regarding local monetary conditions afforded a better foundation for the further dealings of the forenoon. Canadian Pacific made an extreme advance of 4½ points, St. Paul preferred and common 1½ and 2 points respectively, Reading 1½ and New York Central 1 point.

DOROTHY DALTON in "GREEN EYES"**RAPID WORK OF U. S. AVIATORS****America Has Best Training Grounds and Students Ready for Battle When They Leave.**

WASHINGTON, Aug. 23.—Rapid advance in the training of aviators by the division of military aeronautics was described today by Major-General W. L. Kenley, director of the division, who has returned from an inspection trip to the Pacific coast.

The general declared America offered the best training grounds for fliers, not excepting France and England. Training schools are now being grouped so that the cadet fliers may pass from ground, primary and advance instructions without leaving the locality and when the final test is passed they are ready to leave for France.

Squadrons and brigades of fliers will be formed here as the classes graduate, to be sent overseas to take the air at the front in the formation in which they have been trained.

CZAR'S MOTHER WRITES LETTER**Advocates Policy of "Unrelenting Power" Against "Swine" Who Want Crown Domains.**

AMSTERDAM, Aug. 23.—A policy of "unrelenting power" was urged upon the former Russian emperor by his mother, the dowager empress of Russia, early in 1916, according to the secret diary of the emperor as published by the Izvestia of Moscow. The alleged letter was dated January 14, 1916, shortly before the assembly of the first duma.

According to a Moscow dispatch to the Rheinische Westfaelische Zeitung of Essen, the abbreviated text reads: "Dear Nicky: We are deeply thankful for your dear letter. It breathes a new spirit. If earlier we had been more energetic and shown more firmness in the exercise of power much would have been avoided. I do not understand why Witte (one time Russian premier) lost so much time."

"Now to the question which greatly occupies and disquiets me—the question of the cabinet and crown domains which these swine want to take from us, according to their various party programmes. They must be impressed with the fact that no one shall dare to interfere with these personal rights of the emperor and his family. It would be a great historical mistake if we now gave way in the slightest point. Every concession would be interpreted as weakness. Our absolute principle must now be a policy of unrelenting power."

The year the dowager empress' letter was written, according to the Moscow dispatch—1916—evidently is an error. The first duma met on April 27, 1906, during the premiership of Count Witte.

THIN, NERVOUS PEOPLE NEED BITRO - PHOSPHATE

Guaranteed to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Weak, thin people—men or women—are nearly always nervous wrecks; this conclusively proving that thinness, weakness, debility and neurasthenia are almost invariably due to nerve starvation. Feed your nerves and all these symptoms due to nerve starvation will disappear.

Medical specialists state that the lost nerve food is an organic phosphate known among druggists as Bitro-Phosphate. A five-grain tablet of which should be taken with each meal. Being a genuine nerve builder, and not a stimulant or habit-forming drug, Bitro-Phosphate can be safely taken by the weakest and most delicate sufferer, and

the results following its use are often simply astonishing.

Weak, tired people regain strength and vigor, thinness and anorexia give way to plumpness and curves; sleep returns to the sleepless; confidence and cheerfulness replace debility and gloom; dull eyes become bright, and pale, sunken cheeks regain the pink glow of health. Bitro-Phosphate, the use of which is inexpensive, also wonderfully promotes the assimilation of food, so much so that many people report marked gains of weight in a few weeks.

CAUTION—Although Bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not, owing to its remarkable flesh-growing properties, be used by anyone who does not desire to put on flesh.
